**ELDORADO SALOON,**

—AND—  
**MUSIC HEAD-QUARTERS.**

Centre  
opposite Wintermantel's.

THIS NEW SALOON having been newly re-  
fitted with every kind of amusement is  
offered to the public—to wit:

**BILLIARDS,**

**PIGION HOLE,**

**SHOOTING GALLERY.**

All kinds of Musical Instruments at the  
pleasure of the Guests. Also a splendid garden  
attached with a TEN-PIN ALLEY. The same  
superintended by ALEXANDER, who will en-  
deavor to give satisfaction to his friends and  
Guests.  
L. WINTERMANTEL, Prop.  
Reno, April 9, 1876—3m

**A CARD TO THE PUBLIC.**

THE ADVERTISEMENT OF THE CARSON  
SOAP WORKS which appears in to-day's  
STATE JOURNAL was composed and written by me  
before ever the manager or workman of the Car-  
son Soap Works knew what a piece of soap was. I  
am surprised at L. A. Greenlaw appropriating an  
advertisement written by a person not having  
charge of the educational interests of a certain  
portion of our State. Were I connected with in-  
stitutions of learning I would not appropriate  
the simple composition of a hard-hearted son of  
toll, endeavoring to advance my own interests.  
F. M. MULCAHY,  
Carson City, May 12, 1876.

very choice assortment of the

**FINEST MILLINERY GOODS**

EVER SEEN IN RENO.

CALL AND EXAMINE. m2  
april

It must be admitted that the commercial enterprises of the past twenty-five years have been of wonderful assistance to the world's progress. The Pacific Railroad, the Suez Canal, the Mount Cenis tunnel, the railways across Hindostan and the Isthmus of Panama, and to the summit of the Andes, the Hoosac tunnel, and the submarine telegraphic cables, have been wonderful achievements, and well calculated to create the impression that all things are possible and nothing impossible. But man's efforts, well directed, promises in the next quarter of a century to eclipse and cast into the shade the magnificent results of the past. The San Francisco *Alta* outlines what is contemplated and assured in the not distant future.

Among the great public works which have been commenced and have made some progress, though their completion may be reserved for a distant time, are the railroads across our Continent on the Thirty-second and Forty-seventh parallel, and across Siberia. Among those, the construction of which has been determined, are the St. Gothard tunnel, the railroad across Persia, and the deepening and widening of the Mersey for a distance of thirty miles, so as to make a seaport of Manchester, at a cost of \$5,000,000.

The projects under consideration include the canal across the Isthmus of Panama, the tunnel under the Strait of Dover, the deepening and widening of the Seine for one hundred miles, at a cost of \$3,000,000, so as to make Paris a seaport, a canal for the largest ships across Holstein, the construction of a railroad across Persia, another to connect the Mediterranean with the Persian Gulf, another across the Isthmus of Tehuantepec, and one from the City of Mexico to the Rio Grande, and a submarine telegraphic cable across the Pacific. There are also various schemes to supply water to portions of the earth's surface below the level of the sea, including part of the Colorado Desert in California, the Algerian Desert, the Sahara by a canal from the Atlantic about latitude 30°, and the Basin of the Caspian by a canal from the Black Sea. The opening of the vast coal mines of China is not far distant, and its influence will be widely felt. Many of these projects have taken a strong hold on the public feeling of the countries directly interested in them; most of them will probably be underway within the next ten years; and all of them are demanded in the interest of commerce, and will contribute to strengthen the commercial and industrial influences in human life.

THE GREENBACK CONVENTION.

Peter Cooper for President and Newton Booth for Vice President.

The National Independent Convention, in session at Indianapolis, has concluded its labors and adjourned *sine die*. The Convention was not very successful either with its platform or its candidates, presenting in the one case a mass of incongruities and in the other Peter Cooper for President and Newton Booth for Vice President. Cooper has declined to accept the nomination, and recommends Old Bill Allen as his successor. That action alone is sufficient to dam the entire proceedings. We shall be very much surprised if Booth consents to allow his name to go before the people on such an inflation-impossible-nonsensical platform as has been presented.

Prescott, Arizona, is to have a new school house costing about \$12,000, and contracts have already been let for its construction.

Texas is improving her stock by heavy importations of Kentucky short horns.

CENTENNIAL TRIP.

For the information of those who propose a trip to the East and return we have culled from our exchanges such information in regard to the cost for passage as may be of interest. We find that the Central and Union Pacific Railroads make no reduction. Tickets for the round trip from Omaha to New York and return to Omaha can be purchased for \$37, currency, via Philadelphia. From Omaha to Philadelphia and return, \$56, currency. These tickets are sold in San Francisco by all ticket agents. The round trip from San Francisco to New York and return will cost \$257, and to Philadelphia \$256, currency. Tickets are sold (round trip) going East either via St. Louis or Chicago, and can be purchased going East over the Pennsylvania Railroad through Philadelphia, to return via either the New York Central, New York and Erie, or Baltimore, or vice versa. The price of passage to and from New York by railroad has been heretofore \$276, currency, or \$193 each way. There are reduced rates to New York by water. The Panama Transit Company announce that the first steamer of their line to Panama, the South Carolina, will leave San Francisco on Tuesday the 23d, connecting at Aspinwall with the steamer Crescent City for New York. The fare for cabin passage to New York will be \$120 in gold, and for steerage, \$55 in gold. This is \$18 less for cabin than by the Pacific Mail line, which also charges \$65 in currency for steerage passage.

NEVADA MINING NEWS.

(Gold Hill News of Thursday.)

**Ophir.**  
Daily yield 180 to 190 tons of ore. This amount of ore is more than the mills can crush, so that a large reserve of ore is being gradually accumulated at all the mills. The ore breasts are looking finely, and yielding ore of a good quality at every point. On the 1100-foot level across out east has been started from the main drift to connect with the upraise now being made from the 1300-foot level. The north drift on the 1600-foot level has a distance of about 112 feet yet to run to reach the point at which it is expected the ledge will be struck. On the 1700-foot level the drifts and crosscuts have been cleaned out and repaired preparatory to starting the north drift toward the Mexican line. The mine is in a better shape for the advancement of the prospecting on the lower levels, the extraction of ore, and the pressing forward of all kinds of work than it has ever been before.

**Belcher.**  
The foundations for the new pumping engine and other machinery are well under way and are being pressed toward completion at a very early day. Considerable quantities of the pumping and other machinery is now on the ground, and more arriving daily. Daily yield of ore, 450 tons. The yield of this ore is greatly increased over that of last month, the percentage of gold being nearly as great as at any time in the past. The air and drain shaft is completed down to the 1600 foot level. There are no changes of value to report of any portion of the mine. Everything is in good working order and moving along smoothly.

**Crown Point.**  
On the 1600-foot level no work is being done at present, except the driving of the east crosscut which is believed to be in the east country rock, and is only being advanced in that direction, to more fully satisfy themselves that the main ledge has been found and past in the course of the drift. On the 1700-foot level the main south drift is steadily advancing, the face still in quartz and low grade ore. The south winze from the 1600 foot level is down to the 1700 foot level, and is connected with the main south drift on that level, affording a much better ventilation in that portion of the mine.

**Imperial.**  
The extension of the north drift toward the Alpha ground was suspended a greater part of the week for the purpose of giving a better opportunity to start the north winze downward below the 2000-foot level. The winze is now down fifteen feet, the bottom in ore assaying from \$150 to \$200 per ton. Sinking the south winze, below the 2000-foot level, in the Confidence ground, is going steadily ahead, the bottom in very favorable ground.

**Yellow Jacket.**  
Crosscut No. 1, on the 1940 foot level, is steadily advancing. So also is crosscut No. 2 on the same level. The face of the last named drift is in fair ore. Crosscut No. 3 is steadily advancing southward, the face in porphyry. A winze has been started in crosscut No. 3 on the 1940 foot level. This winze is east of the ledge, and will have about twenty feet to sink to reach the vein. It is now down about eight feet.

**California.**  
Daily yield 350 to 400 tons of ore. The ore breasts on the 1500 foot level

are opening up splendidly and promise a richer yield than any mine has ever yet made on the Comstock ledge. The California and Sacramento mills are kept steadily running on ore from the mine. The opening prospects are that the California will in a short time be the leading mine of the world.

**Mexican.**  
The north drift on the 1435-foot level is steadily advanced, following the east wall of the ledge. Preparations for crosscutting the ore vein at several different points on this level, are going steadily forward. The north drift on the 1600-foot level of the Ophir is rapidly approaching the south line of the mine.

**Julia.**  
The southwest drift on the 1600-foot level steadily advancing, with the face in very favorable quartz and ledge matter. On the 1800-foot level the south drift has tapped a strong flow of extremely hot water, which is considered a highly favorable indication of a strong mineral ledge.

**Consolidated Virginia.**  
Daily yield 500 tons of ore, keeping the mills all steadily running up to their full crushing capacity. The Brunswick mill will be repaired and ready to run again in a very few days. The ore stops show little or no change in any part of the mine.

The May Assessment Roll.

(S. F. Bulletin.)

Parties interested in the development of the mines in the Pacific States are obliged to show their interest in the matter to the tune of about \$1,000,000 this month. A list of the assessments which have come under our notice will be found below. It will be observed that there are three or four large amounts. The Savage assessment is probably the largest ever levied in one sum; and we are informed it will all be needed for the new works which are to be erected with a view to opening the mine to lower depths than have yet been prospected. An increased number of shares scatters the burden of these taxes, and helps materially to swell the sinews of war so necessary in the prosecution of this important industry. The dates on which the assessments for May become delinquent at the offices of the companies will be seen in the annexed table:

MINING ASSESSMENTS DELINQUENT IN MAY.			
Names.	Per Share.	Amount.	Del. May.
Baltimore Con.	\$1.00	\$94,000	1
Black Hawk Coal	.50	25,000	4
Caladenia	1.00	100,000	22
Columbia	.50	5,000	15
Columbia Black Sand	.40	4,000	15
Crown Point	1.00	100,000	10
Deer Creek Silver	.75	7,500	18
Great Basin Coal	.10	5,000	14
Cayuse Quick Silver	.10	5,000	22
Himesy Con.	.15	15,000	12
Knickerbocker	1.00	21,000	8
Leop.	1.00	50,000	3
Min.	.20	10,000	23
New York	.50	50,000	1
Omega Table Mountain	.50	5,000	22
Quinn	1.00	50,000	19
Prospect	1.00	100,000	23
Belcher	.10	10,000	15
Savage	2.00	224,000	8
Segregated Belcher	.50	32,000	16
Silver Sprout	.10	1,000	15
Silver Mill	.50	5,000	12
Webfoot	.25	12,500	12

The foregoing assessments aggregate \$931,640, distributed as to locality and amount as follows:

Locality.	Claims.	Amount.
-----------	---------	---------

Nevada	15	\$575,700
--------	----	-----------

California	7	51,900
------------	---	--------

Oregon	1	4,000
--------	---	-------

Totals	23	\$931,640
--------	----	-----------

The three quicksilver mines mentioned in the above list are in the northern part of California. The Black Hawk coal mine is in Alameda county; the Omega Table Mountain is in Ingham county; the Oneida is in Amador county; and the Silver Sprout is in Inyo county, California. The Coquille Black Sand mine is in Coos county, Oregon. All the others are in Nevada, and all but four belong to the non-dividend paying list. The exceptions are Crown Point, Leopold, Savage and Succor. The Leopold assessment was a surprise, following so closely as it did upon dividend day, and stockholders have since been in confusion over it. The assessments on Columbia, Hussey Consolidated, Prospect, Rollins and Silver Sprout are the first levied by those companies and will furnish them with funds for making developments on their respective claims. With one exception, the amount delinquent this month is the largest this year, as will be seen by the annexed summary:

Nevada, California, Idaho, Utah.			
January	\$294,300	\$49,400	\$7,500 \$7,500
February	816,000	60,000	6,250 6,250
March	816,800	98,000	10,000 10,000
April	62,000	30,000	3,000 3,000
May	875,500	61,900	4,000 4,000
Totals	\$3,417,100	\$344,200	\$168,750 \$168,750

The Oregon assessment this month is put under the head of Utah, and \$15,000 collected by Lower California last month is put under the head of California. The mining assessments delinquent during the first five months of the year compares as follows:

Jan. 1 to June 1.	Claims.	Amount.
-------------------	---------	---------

1873	178	\$2,293,800
------	-----	-------------

1874	96	2,578,300
------	----	-----------

1875	184	5,376,400
------	-----	-----------

1876	129	3,944,100
------	-----	-----------

It will be seen that the numbers corresponds with 1873, though the aggregate is nearly \$1,700,000 larger, a portion of which is due to the watering of stock which has become so common during the past three years. It is gratifying to know that while the mining industry is being developed on fully as large a scale as last year, the results are more satisfactory in increased dividends and lessened assessments.

Mustang Race Lost—Collectorship. New York, May 19.

The physicians who attended Parker, the Mustang rider when he broke down, are at a loss to account for his sudden loss of sight in one eye. It was not that he had lost pluck, but he had no physical strength to back it. He had foolishly ridden the race wholly in one direction, a most fatiguing exercise; he had spent his best half of the day without food, and filled his heated body with cold water. He was almost unable to steady himself on horseback, and those who saw him were apprehensive that he might either drop or be thrown from some of the horses. Finally at twenty-five minutes past three as he finished the 226th mile, and was supposed to be about to mount the mustang ready at his right hand, he staggered like a drunken man, and feeling along the judges' stand as a man moves in the dark with hands outstretched, he entered the doorway, reeled one way and then the other, and dropped into a chair. From the chair he fell heavily into the arms of the ranchers and hostlers. They laid him on the floor and bathed his head until the physicians arrived. "I am stone blind," the prostrate rider exclaimed. "Oh, I shall never see again." The physicians examined the rider's eyes. Vision had really gone from one of them. He told Parker that the ailment was only temporary, and urged him to mount the horse and continue the race. Parker said painfully, "I am blind. I can never ride any more. If I wasn't so I would yet win the race." The others urged the rider to mount and ride again. To them he replied, "You want to kill me; I am not strong enough to move." With difficulty he was raised to his feet. The physician asked him a question and he replied that his eyes were never diseased, and he didn't think anything struck or blinded the right eye. The seven or eight thousand spectators clamored furiously for the rider to appear and ride again. Their numbers were increased by train and wagon loads, and the utmost excitement prevailed when they saw the exhausted rider borne along the track to his lodging place in the arms of his companions. They watched him until he disappeared behind an out-building, and then without further demonstration quietly dispersed.

It is reported that the President has asked for the resignation of Connelly, Collector at Philadelphia, and assured the people that if the resignation is not forthcoming he will remove him. Tuttle has been promised the place. He is the one who induced the President to order Bristow to withdraw his order for changing the internal revenue officers.

WESTERN DISPATCHES.

Anti-Coolie Clubs - "Crookedness" - 888 More Chinamen - Assessment - Libel Suit - Pedestrianism. SAN FRANCISCO, May 19.

At a meeting of the Eleventh Ward Anti-Coolie Club last night, the following circular was adopted and ordered sent to the employers of Chinese:

SIR: I am instructed by a resolution of the Central Anti-Coolie Club of the Eleventh ward to notify you that unless you discharge all the Chinese now in your employ in one week from date hereof, your name will be placed on the black list of this Club and published in the daily press of this city. All members of the anti-coolie clubs of this city are prohibited from purchasing or in any way patronizing any firm, company, factory or person employing Chinese labor.

Fearing that this might be deemed incendiary the Club appointed a committee to wait upon the civil authorities and state that no violence was intended.

The Democratic County Committee have begun the work of selecting delegates to the State Convention. It is asserted that the job was put up in the interest of Piper for Congress for this district, and that delegates will be instructed to vote for him, though otherwise unpledged.

No further developments have been made at the Bay View distillery, but the work of following up the un-

derground pipes is vigorously prosecuted. It has leaked out that on Friday afternoon last several workmen engaged in burrowing for subterranean pipes suddenly became affected with a deadly nausea and vomiting. On Friday night the watchmen inside the distillery were also taken sick and Saturday Sedge-wick, Crane and Clark were also attacked with the same sickness. This general attack was traced to water which had been brought from the premises adjacent to the distillery. As the workmen had been drinking this water since they were on the premises, it is impossible to convince them that this particular supply had not been doctored.

Langley has issued his Directory. The estimated population is 273,345—a gain of 45,000 in the past year.

Relative to the dispatch recently received from Washington stating that charges had been preferred against the special revenue agents here, engaged in investigating the whisky frauds, those officials state that they are not aware of any such proceedings having been instituted and are disposed to consider the report a canard.

An assessment of \$1 50 per share has been levied by the Gould & Curry Mining Co., delinquent June 23d.

The Pacific Mail steamer Colorado arrived this morning from Hong Kong and Yokohama with 888 more Chinamen. There was no marked demonstration on their landing.

The proprietors of the *Bulletin* yesterday brought another suit for libel against the *Alta* in the Third District Court. The suit is based on the same article on which the previous complaint was laid, and is virtually the same case, but in another Court. The publication of the testimony of D. O. Mills, George H. Howard and Michael Reese, taken before the Court Commissioner, excites considerable comment, as the examination was private and only the official reporter and reporters in the employ of the parties to the suit were present, the intention being to withhold the testimony from publication until presented to the Court. The examination took place about April 26th. The case is not likely to come up before July.

O'Leary is still walking rapidly and easily. He is behind the time of his previous tramp, but offers to bet that he will make the five hundred miles in six days. The improvement noted in Schmebl's condition has not proved permanent, and he is now walking slowly and will probably soon give it up.

O'Leary completed his 335th mile at 12 o'clock last night. Schmebl is 103 miles behind. O'Leary has rested less than three hours during the last twenty-four, as he has but 36 hours to walk 165 miles. Many of his friends begin to doubt his ability to complete the walk.

LIST OF LETTERS

REMAINING in the Reno, Nevada, Office up to May 20, 1876. If not called for within one month they will be sent to the Dead Letter Office at Washington, D. C.

**HOME CELEBRATION.**—We are not in favor of Reno celebrating this year. Let us be magnanimous and give Carson a show. They intend to do the thing up in grand style. We can well afford to forego a celebration. We ought not to be hogish and strive to have all the good things in this town. We shall want Carson to stand in at our State Fair, and that Fair is worth more money to us than six or eight celebrations. If we pursue a liberal policy that Fair will drop us a \$75,000 egg this Fall. We can't expect aid from other towns unless we occasionally give them a lift.

The new lumber yard will be in operation in a day or two, Messrs. C. A. Bragg & Co., having secured a location up by the ice house. C. A. Bragg and Allen Bragg, formerly of Camp 18, and L. L. Crockett, of Dayton, compose the firm, and they make a very strong team. Messrs. Crockett and Bragg are also stockholders in the savings bank. We are very much pleased to have these gentlemen cast their fortunes with us.

**NAMES OF STREETS.**—Many people are not familiar with the names of our streets. For instance but few know the name of the street upon which the Congregational Church faces. The name of it is Chestnut. The next one West is called Nevada, and the one beyond that has been named Ralston. Going north we have Fourth, Fifth, Sixth, Seventh, Eighth, and Elm, Maple, Oak, in Connor's Addition.

Twice a bad night last night—wind and dust in abundance to the filling of ears and eyes and general demoralization of all who ventured out. Up to the time of our going to press, midnight, no rain had fallen, though the clouds looked threatening. We don't like to ask anything hard, but when will fine weather set in to stay with us?

**PUBLIC MEETINGS.**—Reno ought to give utterance to her thoughts upon the Chinese question. Also a public meeting of the citizens should be held to decide what we propose to do concerning the Methodist Seminary. That woodchuck must be caught.

**ATTLE MONEY.**—Wm. Webster, Manager of the Consolidated Poe, has gone below to raise the wind, and smooth over the company's difficulties. If there is any money lying around loose down there he will pick it up and bring it home with him.

**O. P. MYERS,** the press agent of Montgomery Queen's circus, is in this vicinity securing lots for the tents, making contracts, etc. Queen is traveling over the mountains this season by wagon instead of by rail.

**PERSONAL.**—Mrs. F. P. Kingsbury returned from San Francisco yesterday morning. A woman of rare business qualifications her advice and counsel will be received in connection with Peavine affairs.

The members of the Library are paying up their dues and the late assessment with remarkable promptitude. Their action is worthy of commendation.

**MORRIS ASH** contemplates some improvements in his place which will give him the first saloon in the town. A wide awake rustler in business is this same Ash.

**SALOONS.**—A person who takes the time and trouble can count up twenty-seven saloons in Reno. And yet there is another one about to open.

As a tooth extractor Dr. Sheets is an immense success. Persons in need of a good dentist should call his services into requisition.

Two boxes and six sacks of coin and five bars of bullion comprised the shipment of wealth last night.

The Irish patriot, O'Donovan Rossa, will go through Reno to-night, on his way to Virginia City.

TRAVEL was heavier on the express train last night than usual.

**PIANO TUNING AND REPAIRING.**—Mr. Jacob Zech, of San Francisco, the pioneer piano manufacturer of the Pacific Coast, will be in Reno in about a week to repair and tune pianos, and also to sell the celebrated Zech piano, patented April 4th, 1876. Orders may be left with Mr. Louis Wintermantle, where one of these pianos can be seen.

## RAILROAD CHARGES.

Protest Against the Exorbitant Charges of the Union Pacific and Central Pacific Railroads.

In answer to a communication from the Cincinnati Board of Transportation, requesting the co-operation of the New York Board of Cheap Transportation and other similar bodies to memorializing Congress against additional land-grants to the Central and Union Pacific roads, the Committee on Railway Transportation have prepared a memorial petitioning Congress to the effect that the Union Pacific railroad, which derived its existence from the liberality of the people of the United States, instead of being operated so as to promote to the largest extent the commercial prosperity of the nation, is operated for the pecuniary aggrandizement of a few individuals. The rates they impose for carriage of freights are enormous, and in proportion to the cost of service of transportation by rail is variously estimated by the best authorities, at from one half to three fourths of one per cent per ton per mile. The distance from Omaha to San Francisco is 1,907 miles, and at the maximum rate of three quarters of a cent per ton per mile the cost of transportation for the entire distance is seven and a half cents per 100 pounds, and that while the present rate is \$6 for first class freight for some merchandise, they charge double first-class rates. This is a profit of nearly 1,600 per cent. on the last named rate. From Omaha to Reno, a distance of 1,613 miles, or 294 less than to San Francisco, the rate is \$7.29 for first-class, or \$15.58 for double first class, or upwards of 2100 per cent. profits. This corporation, having bought out their steamboat competitors from New York, raised their rates of freight 100 per cent., and thus enforced a ruinous tax on all commerce between the eastward States and San Francisco. The rate from Pittsburg to San Francisco and from Cincinnati to the same point are so arbitrarily adjusted as to be 30 per cent in favor of Pittsburg, notwithstanding a distance of 50 per cent. against that city. Such a monopoly was certainly never anticipated when the nation's resources were taxed to facilitate the building of the Central Pacific railroad. The memorialists would therefore pray that no further benefits be conferred by legislation on this corporation, but that every restriction which can be offered to this abuse of power be enforced by such legislation as may seem expedient.

## MISCELLANEOUS.

## JUST ARRIVED

At the New Store of

## BECK &amp; CO.

VIRGINIA STREET, RENO, NEV.

A full assortment of

## GENERAL MERCHANDISE

Consisting of

Sheet Hardware,

Iron and Steel,
